# Lift solutions at competitive prices

The Translyft B series has been developed to give you good value for money. As all of our products the B series is CE certified and manufactured in accordance with EN 1570-1.

The lifts are covered in a powder coat finish to guarantee a tough and wear resistant surface. The bottom frame and platform in blue RAL 5002 and the scissors in orange RAL 2010. We offer a wide range of lift tables in the B series with a lift capacity from 500 to 2000 kilos and a lift stroke from 600 mm to 1420mm.

Models in the B series can only be offered as standard and cannot be customised. The Translyft's B series is **not** designed to be used in continuous operations in a production line or the like.

- Capacity from 500 - 2000 kg.
- Lift stroke from 600 mm to 1420 mm.
- Lift table length from 900 mm to 1500 mm.
- 24 V DC control unit and operating device with deadman's operation.
- IP54 approved electrical system.
- Power pack for a 3 x 400 V/50 Hz.
- Overload protection.
- Safety trip bars on all sides of the platform.
- With hose burst valve and mechanical locks for service and maintenance.

## Translyft Low Profile Lifting Tables

**TRANSLYFT Low profile tables**

Type / Capacity	Art no	Travel mm	Closed height mm	Max height mm	Length mm	Width mm	Lift Speed mm/sec	Motor kw	Weight kg

BLD1500	6010070	1420	360	1780	1300	850	29	1,5	320

## Single Scissor Lifting Trolley

The lift trolleys in our B series are perfect for simple material handling. Single and double scissors are an integral part of the range, with a load capacity between 200 and 500 kilos and a lift stroke from 600 mm to 1170 mm.

The trolleys are delivered with large front wheels complete with double brakes on the manoeuvrable swivelling rear wheels. A foot pump lets you regulate the height easily and smoothly.

The surface is covered in a wear resistant blue RAL 5002 coat finish. The lift trolleys are used wherever there is a need for lifting, assembly, transportation or where you require an adjustable working height.
